

Tree Surveys and inspections

CHTS provide a bespoke service to persons and organisations concerned with the management and condition of trees. We undertake tree surveys and inspections, that allow the client to carry out any necessary remedial works, budget for predicted future works, fulfil legal obligations and produce accurate records of tree condition, density, age and species in any given area. The services offered can be tailored to the clients needs.

1: Tree Surveys

GIS / Digital survey

We can provide you with experienced staff members who can collect data using your GIS systems. We have experience in the use of **Arbortrack** and **Cadcorp**.

CHTS provide an innovative professional approach to tree management. We provide a routine cyclical survey & Inspection Service to land owners. All the survey data collected is presented to the client digitally on a disc. No paper plans or schedules to leaf through, in order to find the information you want.

All the information is provided in a Microsoft Access database . All the information links seamlessly and can be accessed and saved on your computer. Records can be recalled with a click of the mouse and survey data compared and cross-referenced within the access database. The data collected is provided to the client in a simple to use format that requires windows XP, but no specialist computer skills or expensive software to run the program.

2: Tree Inspections, including Pre-mortgage reports

We also provide our clients with individual tree inspections and pre-mortgage reports.

CHTS provide the following list of Services

Tree Surgery

Tree Consultancy

Tree Surveys & Inspections

Stump Grinding

Hedge Cutting

Grounds Maintenance Services

LOLER Inspections

Christopher Hoare is an accredited LOLER inspector. Chris can inspect contractors lifting, lowering & climbing equipment. Provided you have at least 10 climbing kits we will come to you. Any less than 10, you will need to bring your equipment to us.

We inspect kits based on the following rates:

£25 per climbing kit / 1 rope / 1 harness / 4 karabiners / 2 strops & 1 flip line

£5 for individual Rigging/Lowering items

We trust that you will find the information contained in the following pages, informative and interesting.

Christopher Hoare Tree Services (CHTS) provides a comprehensive service to residential and commercial clients. We offer a professional, dependable service that also includes very competitive rates. We provide a service to large organisations that manage large areas with many trees, but we also provide an equally excellent service to the residential customer who may only have one tree.

Tree Surgery & Grounds Maintenance operations

We currently employ 20 professionally trained and competent staff members. We are well equipped to provide an excellent service, from the initial contact through to completion of work. We welcome enquires with regards to our services and look forward to being of service to you in the future.

Christopher Hoare
Company Director.

Stump Grinding

We can arrange to remove any size of stump and can provide you with a cost based on the size of your stump, access and your location.

Tree Surgery

CHTS provide a professional and comprehensive tree surgery service to our customers. If you have a one or more trees to manage or remove, we can help.

It does not matter if it is a small or large tree in your garden, or if you are commercial customer with many trees to manage, we are here to provide a service to you. Our customers are important to us and we aim to provide a service that retains your custom.

Our Contracts manager, Mark Hines, has been involved in the Tree Care industry for 13 years. He has worked as a Tree Officer in Local Authority for three years and as a commercial tree surgeon for 10 years, Mark also has a National Diploma in Arboriculture. He is on hand to provide our customers with advice and guidance on any tree related matter and will oversee the management of cyclical contracts and one of jobs.

Cyclical management contracts or one of jobs are undertaken by staff employed by CHTS. We only employ staff with the necessary qualifications and experience, to undertake the Task we employ them to do. We adhere to all legal requirements, to ensure that we operate within the guidelines set by the Health and safety Executive (HSE). We can provide our customers with evidence of conformity to any of the following regulations or safe operating procedures:

(LOLER) Lifting Operations Lifting Equipment regulations

(PUWER) Provision and use of working equipment regulations

Insurance Certificates

COSHH Control of Substances Hazardous to Health

RIDDOR Reporting of Injuries or Dangerous Occurrences Regulations

Grounds Maintenance

CHTS provides an excellent Grounds Maintenance service. The company believes that by providing this service in addition to our tree surgery service, we offer a truly comprehensive service to both, corporate & large organisations, concerned with the management of large areas.

Quality—Reliability— Service

We ensure that high standards of service are provided to the client from the initial contact through to completion of the work. CHTS can write your grounds maintenance specification for you, to suit your budget and requirements or we can work to your existing specification. Our services cover all aspects of grounds maintenance, for example:
